OFFICE OF CONSERVATION  
SHREVEPORT, LA.

Dear Commissioner Welsh:

Application is hereby made on behalf of **ENCANA OIL & GAS (USA) INC.**, for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters:

1. To permit the applicant to drill, designate and utilize its Brown Southwest Minerals 20H No. 1 Well as unit well for the JUR RB SUE, at the location shown on the plat attached hereto, in exception to the spacing provisions of Office of Conservation Order No. 917-J, effective August 1, 2006, or within a radius of 100 feet thereof, but in no event closer than 330 feet from the nearest unit line and 660 feet from the nearest offset Jurassic or Haynesville Zone well to account for any slight variation in the actual "as drilled" location.
2. To find that the proposed unit well at the location shown is necessary to efficiently and economically drain a portion of the reservoir covered by the unit in which it is situated and that use of such well will not adversely affect offset owners.
3. To designate EnCana Oil & Gas (USA) Inc. as unit operator.
4. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 917-J, effective August 1, 2006, as amended and supplemented by the 917-J Series of Orders, the units created thereby, and applicable Statewide Orders.
5. To consider such other matters as may be pertinent.

The Jurassic Zone, in Bracky Branch Field, Red River Parish, Louisiana, was previously defined in Office of Conservation Order No. 917-J, effective August 1, 2006, and redefined in Order No. 917-J-2, effective June 17, 2008.
