Re: APPLICATION FOR PUBLIC HEARING.

Cotton Valley Formation, Reservoir A,
LOGANSPOUT FIELD, DeSoto Parish, Louisiana.

Dear Sir:

INDIGO MINERALS LLC ("Applicant") hereby respectfully applies for a public hearing to consider evidence relative to the issuance of an Order pertaining to the following matters relating to the Cotton Valley Formation, Reservoir A, in the Logansport Field, DeSoto Parish, Louisiana:

1. To authorize Applicant to drill, designate and utilize a horizontal well as an alternate unit well for CV RA SUX at the location shown on the attached plat, and to approve an exception to the spacing provisions of Office of Conservation Order No. 28-W, effective April 22, 1980, for all productive portions of the wellbore of this well located at least 330 feet from a unit boundary.
2. To find that the proposed alternate unit well is necessary to efficiently and economically drain a portion of the Cotton Valley Formation, Reservoir A, underlying CV RA SUX which cannot be efficiently and economically drained by any existing well on such unit.
3. To provide that where the horizontal portion of the well is cased, the distance to any unit boundary and between offset well(s) will be calculated based on the distance to the nearest perforation in the well and not on the penetration point or terminus of the well in the Cotton Valley Formation.
4. To permit the operator of CV RA SUX to produce the unit allowable from either the unit well, from the alternate unit well, or from a combination of such wells, at the option of the Operator.
5. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Cotton Valley Formation, Reservoir A, in the Logansport Field, DeSoto Parish, Louisiana, was defined in Office of Conservation Order No. 28-W-1, effective October 15, 1982.
