RE: Cotton Valley Davis Zone, Reservoir A  
Unionville Field  
Lincoln Parish, Louisiana

**AMENDED APPLICATION FOR PUBLIC HEARING**

Dear Sir:

Franks Operating Company, L.L.C. ("Franks") filed an Application for Public Hearing dated March 23, 2010, pertaining to the Cotton Valley Davis Zone, Reservoir A, in the Unionville Field, Lincoln Parish, Louisiana. Franks now wishes to amend that application by revising Paragraph 3 therein relating to the redefinition of the Cotton Valley Davis Zone, Reservoir A, and does so by substituting the following language for the original Paragraph 3:

3. To redefine the Cotton Valley Davis Zone, Reservoir A, INSOFAR AND ONLY INSOFAR as CV DAVIS RA SU68 and CV DAVIS RA SU77 are concerned, as the stratigraphic equivalent of that gas and condensate bearing zone occurring between the depths of 8,554 feet and 9,375 feet (electric log measurements) in the Midroc Operating Company - Johnston 11-4 No. 1 Well located in Section 11, Township 19 North, Range 1 West, Lincoln Parish, Louisiana;

The Cotton Valley Davis Zone, Reservoir A, in the Unionville Field was previously redefined in Office of Conservation Order No. 206-E-35, effective December 14, 1993. The top of the Cotton Valley Davis Zone, Reservoir A, as identified and redefined in Order No. 206-E-35 (the top being at 8,530 feet in the Franks Petroleum, Inc. et al. - L. H. Giles No. 1 Well) is correlative to the top of 8,554 feet in the Midroc Operating Company - Johnston 11-4 No. 1 Well referenced above. It was not intended that the top of the Cotton Valley Davis Zone, Reservoir A, be revised or redefined pursuant to the subject application, only the base. For that reason, Franks wishes to amend Paragraph 3 of its March 23, 2010, Application for Public Hearing as provided herein, to clarify the top and base of the Cotton Valley Zone, Reservoir A, as proposed to be redefined hereby.
