Re: APPLICATION FOR PUBLIC HEARING.

Haynesville Zone, Reservoir A, ELM GROVE  
FIELD, Bossier Parish, Louisiana.

Dear Sir:

J-W OPERATING COMPANY ("Applicant") hereby respectfully applies for a public hearing to consider evidence relative to the issuance of Orders pertaining to the following matters relating to the Haynesville Zone, Reservoir A, in the Elm Grove Field, Bossier Parish, Louisiana:

1. To authorize Applicant to drill, designate and utilize three (3) horizontal wells as alternate unit wells on each of the units designated HA RA SU60, HA RA SU61, HA RA SU81 and HA RA SU97, all as shown on the attached plat.
2. To find that each of the proposed alternate unit wells is necessary to efficiently and economically drain a portion of the Haynesville Zone, Reservoir A, underlying the unit on which it is proposed to be drilled which cannot be efficiently and economically drained by any existing well on such unit.
3. To permit the operator of each of these units to produce the allowable assigned to a unit from either the unit well, from any alternate unit well, or from any combination of such wells, at the option of the operator.
4. To provide that with respect to horizontal wells drilled to the Haynesville Zone within these units, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, the distance to any unit boundary or offset well(s) will be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus of the well in the Haynesville Zone.
5. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, Reservoir A, in the Elm Grove Field, was defined in Office of Conservation Order No. 361-L, effective July 29, 2008.
