Re: Alternate Unit Well
17,900' Tuscaloosa Sand, Reservoir A
Morganza Field
Pointe Coupee Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of **ENERGY PRODUCTION CORPORATION** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters related to the **17,900' Tuscaloosa Sand, Reservoir A**, in the **Morganza Field**, Pointe Coupee Parish, Louisiana, for which rules and regulations were established and a pattern of drilling and producing units was created by Office of Conservation Order No. 1102, effective October 20, 1980, as amended and supplemented by the 1102-A Series of Orders, to-wit:

1. To permit the applicant, Energy Production Corporation, to designate and utilize the Energy Production Corporation – Labarre 77 No. 3 Well as an additional alternate unit well for 17900 TUSC RA SUC at the location shown on the plat attached hereto and made a part hereof, in exception to the spacing provisions of Office of Conservation Order No. 1102;

2. To permit the unit operator, Energy Production Corporation, to produce the unit allowable for 17900 TUSC RA SUC from the unit well, the alternate unit wells, the proposed additional alternate unit well, or any combination thereof, at its discretion;
3. To find that the proposed additional alternate unit well is necessary to drain a portion of the 17,900' Tuscaloosa Sand, Reservoir A, underlying the 17900 TUSC RA SUC, which cannot be efficiently and economically drained by any existing well within such unit;
4. Except to the extent contrary herewith, to continue in full force and effect 17900 TUSC RA SUC, and the provisions of Office of Conservation Order No. 1102, effective October 20, 1980, as amended and supplemented by the 1102-A Series of Orders; and
5. To consider such other matters as may be pertinent to this application as shown by the evidence presented at the public hearing.

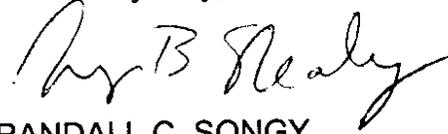

The 17,900' Tuscaloosa Sand, Reservoir A, in the Morganza Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1102, effective October 20, 1980, and was redefined by Office of Conservation Order No. 1102-A-24, effective November 1, 2005.

Any pertinent data relating to this Application can be obtained AT THE COST OF THE REQUESTING PARTY from Frank W. Harrison, Jr., P.O. Box 51943, Lafayette, Louisiana, 70505 (337) 232-4031.

There is attached hereto and made a part hereof a plat which outlines 17900 TUSC RA SUC, and reflects the location of the current unit well, the alternate unit wells, and the proposed additional alternate unit well. There is also attached hereto a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom this proposal is being sent. Pursuant to the Revised Rules of Procedure, such a list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, there is enclosed our check in the sum of \$755.00 payable to the Office of Conservation, representing the required hearing application fee.

Yours very truly,

A handwritten signature in black ink, appearing to read "RCS/JS", written over a printed name.
