RE: HEARING APPLICATION
Alternate Unit Wells
HA RA SUH
Haynesville Zone, Reservoir A
Thorn Lake Field
Red River Parish, Louisiana
Our File No. 430071.233

Dear Sir:

On behalf of QUESTAR EXPLORATION AND PRODUCTION COMPANY, application is hereby made for a public hearing to receive evidence concerning the issuance of an order pertaining to the following matters relating to the Haynesville Zone, Reservoir A, in the Thorn Lake Field, Red River Parish, Louisiana:

1. To permit the Applicant to drill, designate and utilize four (4) alternate unit wells for HA RA SUH, at the locations shown on the plat attached hereto.
2. To explicitly find that the proposed alternate unit wells are in the interest of conservation and are necessary to drain a portion of the Haynesville Zone, Reservoir A, in the Thorn Lake Field underlying HA RA SUH, which cannot be efficiently and economically drained by any existing well in such unit.
3. To provide that, with respect to horizontal wells drilled to the Haynesville Zone, Reservoir A, within or to serve said unit, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary and any offset well(s) will be calculated based on the distance to the nearest perforation in the well, and not based on the penetration point or terminus.
4. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Haynesville Zone, Reservoir A, in the Thorn Lake Field, Red River Parish, Louisiana, is defined in Office of Conservation Order No. 1145-B, effective July 15, 2008.

The Revised Rules of Procedure of the Commissioner of Conservation pertaining to the Pre-Application Notice requirements, are not applicable to the hearing requested herein, which requires legal notice of only ten (10) days.
