Baton Rouge, LA 70804-9275

RE: Pryme Energy, LLC (P298)
SL 502 No. 1 (SN 241512)
Catahoula Lake Field – LaSalle Parish

Dear Mr. Welsh,

Application is hereby made on behalf of Pryme Energy, LLC (P298) for the calling of a public hearing after ten (10) days legal notice, to consider evidence to the issuance of Orders pertaining to the following matters:

1. To find that the proposed alternate unit well, SL 502 No. 1 (SN 241512), is necessary to efficiently and economically drain the reservoir covered by SL 502 WX C RC SU64.
2. To permit the operator of the aforementioned units to produce the unit allowable from the existing unit well and the proposed alternate unit well, in any combination, at its option.
3. Except to the extent herein set forth, to continue in full force and effect the provisions of the Office of Conservation Order No. 773-F, effective January 1, 1986, as amended and supplemented by the 773-F series of orders effective, December 9, 1988, November 27, 1989, and July 10, 1990, the unit created thereby for the Wilcox Zone, Reservoir C, in Catahoula field, and applicable statewide orders.
4. To consider such other matters as may be pertinent.

The Wilcox Zone, Reservoir C, in Catahoula Field, LaSalle Parish, Louisiana, was previously defined in the Office of Conservation Order No. 773-F, effective January 1, 1986.

The applicant is requesting permission to designate the SL 502 No. 1 (SN 241512) well as an alternate unit well in the Wilcox Zone, Reservoir C Unit. This well will permit the efficient and economical recovery of hydrocarbons underlying the unit, will not adversely affect the adjacent offsetting units, and is needed to satisfy the market demand for hydrocarbons from the field.

Attached hereto and made a part hereof is the plat of the proposed alternate well, along with a list of the names and addresses of the Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished ONLY to the Commissioner of Conservation and to the District Manager of the Monroe District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Parties.

At this time there are no plans to hold a pre-hearing meeting. However, should any party request a meeting we will be happy to comply with that request as the agent for Pryme Energy, LLC.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$750.00 **made payable to the Office of Conservation** and representing the required hearing application fee.

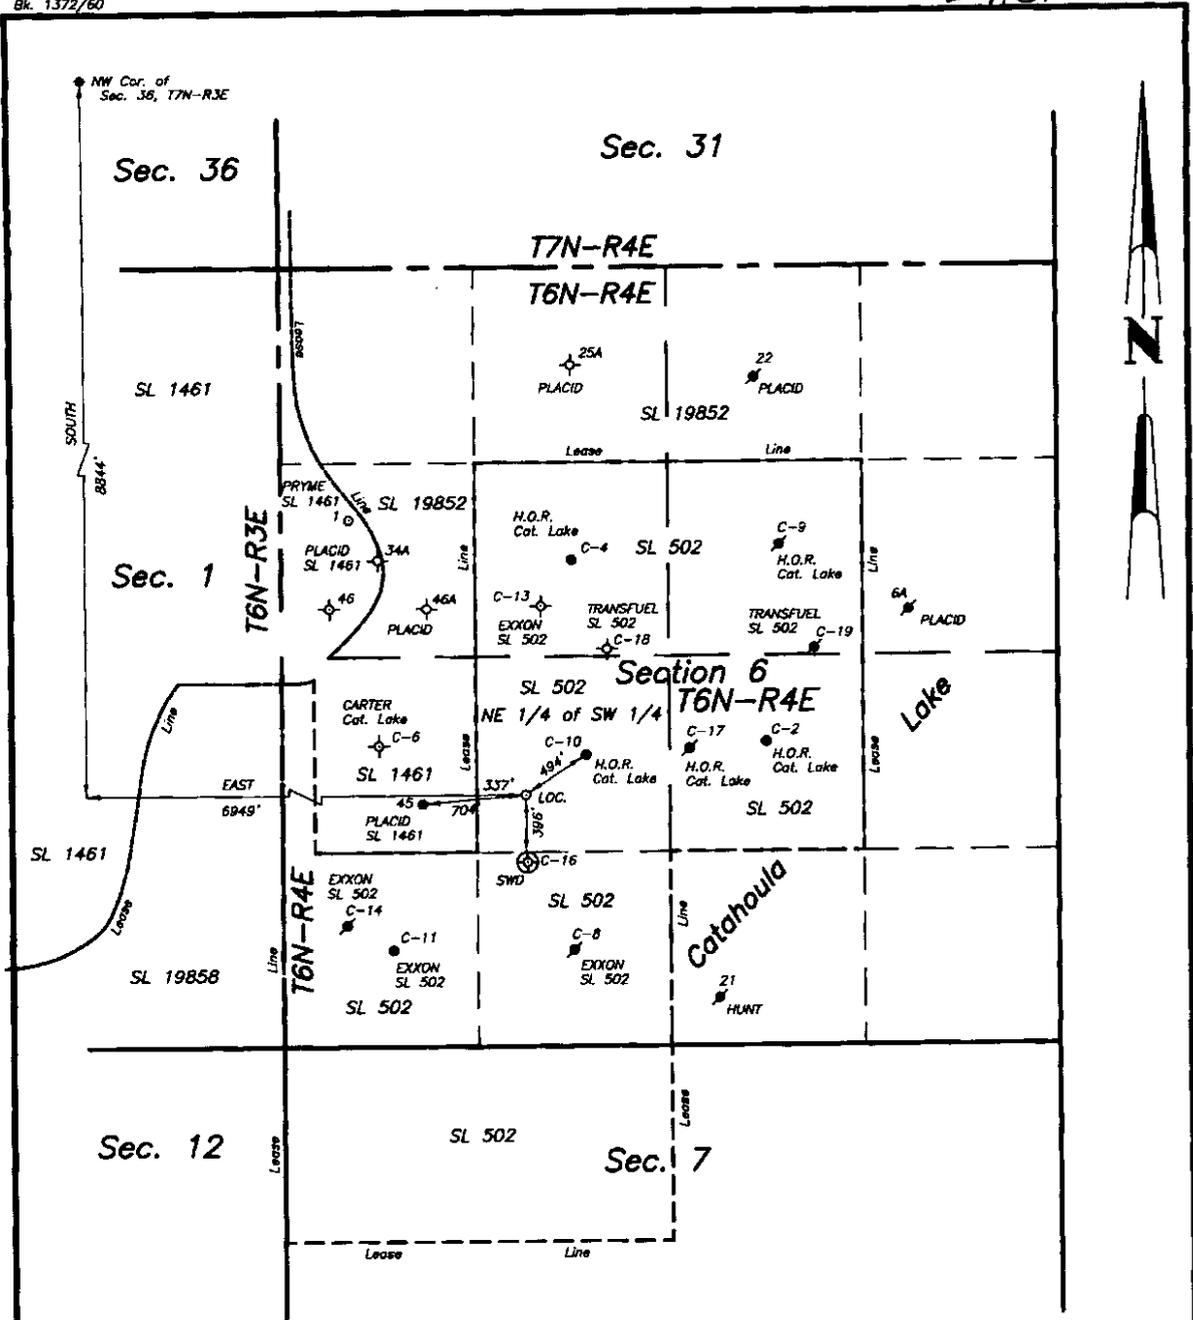

Best regards,

W. Clay Kimbrell, P.E., C.P.G.
