

August 26, 2011

TO: ALL POTENTIAL PROPOSERS

**RE: RFP No. 2501-11-01
“Data Management for NRDA”**

ADDENDUM

1. **REVISED DEADLINE DATE**: September 8, 2011 3:00 PM
2. The following language is added to the “10. No Adverse Representation” section on pages 8-9 of the RFP, immediately following the list of parties:

Proposers are required to give up-front disclosures with respect to the listed parties on behalf of both the Proposer (prime contractor), and should also give up-front disclosures with respect to any subcontractors that are proposed to perform core functions of the RFP (i.e., those subcontractors whose qualifications will significantly affect the ranking of Proposals, such as advisors, systems architects, programmers, etc.). Up-front disclosures of relationships with listed parties are not required for subcontractors providing only discrete or ancillary services (such as hosting or GIS). A Proposer will not be disqualified solely on the basis of failing to make up-front disclosures for a subcontractor that the Proposer does not consider to be involved in “core functions” of the RFP, even if the State believes that the proposed subcontractor would be performing such functions. However, during negotiations all subcontractors proposed by the selected Proposer will be heavily scrutinized.

3. The following underlined language is added to the last paragraph of the “10. No Adverse Representation” section, found on pages 8-9 of the RFP:

Additionally, by virtue of submitting a proposal, Proposers affirm that they have reviewed the “No Adverse Representation” clause found in the Sample Contract (Attachment III), ~~and~~ Proposers affirm they are willing and able to comply with this clause if their proposal is selected: unless otherwise noted in accordance with the provisions of section 3.12, Contract Award and Execution, on page 5.
