

## LEERIC ARCHIVE WEB SITE

The **Louisiana Energy & Environmental Resource & Information Center (LEERIC)** was a cooperative program between the LSU Center for Coastal, Energy & Environmental Resources (CCEER) Information Services Division (ISD), The Louisiana Department of Natural Resources (DNR), the Louisiana Department of Environmental Quality (LDEQ), and private sector supporters.

Its mission was to:

- function as a clearinghouse of technical and non-technical energy and environmental information, including policy and statistical data;
- acquire and provide, through inter-library loan, energy and environmental resources to all groups in Louisiana;
- collect, catalog, and maintain quality print and non-print materials which are especially pertinent to understanding energy and related environmental issues, research, and education as they relate to Louisiana;
- provide a single stop energy and related environmental information service through a toll free 800 hotline number (in Louisiana only) and a web site;
- serve as part of a national network of *Alliance Centers for Environmental Education*;
- work and network with business, industry, government, civic leaders, teachers, administrators, and students to enhance science education locally and throughout Louisiana;
- develop and deliver quality hands-on science workshops related to energy use and conservation for teachers; and
- produce credible materials for educators and researchers.

Upon completion of the program:

- The active web site has been converted to this archive.
- Older materials and links have been removed. Updated and current versions may be found on other web sites, such as DNR & DEQ, or through online web searches.
  - **Louisiana Department of Natural Resources**
    - DNR Technology Assessment Division
  - **Louisiana Department of Environmental Quality**
- Archived information available:
  - **Louisiana Environmentalist Magazine**  
*Selected information only. Complete copies may be found at your local college or public library.*
- The K-12 library was moved to the **Louisiana Resource Center for Educators (LRCE)**.

NOTE: The Center for Coastal, Energy & Environmental Resources (CCEER) has been reorganized into the **Center for Energy Studies** and the **School of the Coast and Environment**.
