

## **PUBLIC NOTICE**

Department of Energy and Natural Resources  
Office of Conservation  
Injection & Mining Division

ExxonMobil Low Carbon Solutions Onshore  
Class V Stratigraphic Test Well  
Docket No. IMD 2025-11  
St. Landry Parish  
Application No. 46102

Pursuant to provisions of the laws of the State of Louisiana and particularly Title 30 of the Louisiana Revised Statutes of 1950 as amended, and provisions of Statewide Order No. 29-N-1, notice is hereby given that the Injection & Mining Division has prepared a Draft Permit for the application referenced below and that the Commissioner of Conservation will conduct a public hearing to solicit comments on the Draft Permit. The hearing will be held at the LaBelle Room, on the 1<sup>st</sup> floor of the LaSalle Building, 617 North 3rd Street, Baton Rouge, LA 70802 at 9:00 am on September 16, 2025.

At such hearing, the commissioner or his designated representative will give any interested person the opportunity to present testimony, facts, or oral or written comments relative to the Draft Permit prepared in response to an application by:

ExxonMobil Low Carbon Solutions Onshore  
22777 Springwoods Village Parkway  
Spring, TX 77389

ExxonMobil Low Carbon Solutions Onshore has applied to the Office of Conservation, Injection and Mining Division for a permit to drill and complete a Class V Subsurface Stratigraphic Test Well in Section 16, Township 03 South, Range 05 East, of St. Landry Parish to acquire geotechnical information. The proposed well location is Latitude: 30° 47' 32.48"N, Longitude: 91° 57' 29.07"W (NAD27- LA South). The proposed well will be identified as Ursa Strat Test Well No. 001 and will be utilized as a monitor well. The well will be drilled to a depth of approximately 7,000 feet below ground level (BGL) with geotechnical cores, fluid samples, pressure measurements, and other applicable information collected. The base of the lowermost underground source of drinking water (USDW) at this location occurs at an approximate depth of 1,414 feet BGL.

A copy of the Draft Permit, fact sheet, or other information concerning the application may be obtained by writing to Scott St. Romain, Office of Conservation, Injection & Mining Division, 617 North 3<sup>rd</sup> Street, Ninth Floor, Baton Rouge, LA 70802 or by calling (225) 342-5517. The Draft Permit and fact sheet are also available for inspection between 8:00 A.M. and 4:30 P.M., Monday through Friday in the Injection & Mining Division Office, Rm. 817, of the LaSalle Building, 617 North 3rd Street, Baton Rouge, LA 70802.

During this public hearing, the hearing officer will only receive comments. The Office of Conservation will respond to all relevant comments in a written report after the conclusion of the public comment period.

Interested parties may submit written comments on the application. Written comments concerning the application must be received by the Office of Conservation no later than 4:30 P.M., September 17, 2025. Submit all comments to: Scott St. Romain, Office of Conservation, Injection & Mining Division, 617 North 3<sup>rd</sup> Street, Ninth Floor, Baton Rouge, LA 70802. Comments may also be e-mailed to [info@la.gov](mailto:info@la.gov). Please

reference: ExxonMobil Low Carbon Solutions Onshore, Class V, Application Number 46102, Docket No. IMD 2025-11.

All persons having interest in the aforesaid shall take notice thereof.

By order of:

Steven Giambrone  
Office of Conservation

In accordance with Act 393 of the 2023 Louisiana Regular Session, accommodations will be provided upon request to people with disabilities in order to access this public hearing. To request an accommodation for this hearing, please contact Maranda Rispone at 225-342-9088 or [DNR-HumanResources@la.gov](mailto:DNR-HumanResources@la.gov).
