WELL LISTING

	SERIAL NO	TYPE	WELL NAME	WELL NO.
	097527	SWD	NICKERSON SWD	001
1	130998	4 OIL	LAFAYETTE PARISH SCHOOL BOARD	001
3	218373	OIL	MT RF SUB: NICKERSON	004
3	223898	OIL	MT RF SUC: NICKERSON	005

SONRIS allows for processing of multiple serial numbers at a time when wells are in same sequence on OJC, same fee type, and the only change is the operator.

1. Well Serial Num – initial in series of common serial numbers
2. Effective Date – effective date of operator change
3. Well Serial Num – end in series of common serial numbers
4. Payment Type – drop down menu with options of CORRECTION
 PAID..\$50 – incapable gas, stripper oil
 PAID..\$126 – oil, gas, SWD, other
 PAID..\$117 – obsolete. No longer used.
 UNPAID – Status 22, Status 23
6. Invoice Num – sometimes listed on LT1 only
7. Organization – new operator code

Use public OJC for large operator changes or internal – same data

Public OJC query www.sonris.com > SONRIS Data Portal > Well Information > Well Information Details by Operator (OJC). Query current/former operator; review results by Field grouping. Identify initial serial number and end serial number in common sequence by fee and included in operator change. In this example, 130998 is the initial and 223898 is the end.
