

# API Assignment

- API is assigned by surface location – state, Parish (or offshore area) sequence code. Maintained in spreadsheet- tab for each parish/offshore area

F:\OoC\Eng\Engineering\RegulatorySection\PermitsSection\DrillingPermits “API – Well Permit Register – Form-DMH – [YEAR]”

API WELL NUMBER			
ORIGINAL HOLE			Last 4 digits are 0000
STATE CODE	COUNTY CODE	UNIQUE WELL CODE	
99	999	99999	

- If a dual, repermit, or redrill, utilize API of the referenced serial number and key into bottom of Parish page
- Most APIs will start with the Louisiana code (17).
  - It is rare, but some wells have a surface outside Louisiana (Texas, Arkansas, Mississippi, Fed Waters). If surface is outside state, we’ll use AP granted by that entity.

# API Assignment - example

2022 API Well Permit Register - Louisiana 17
