				Lake)	See CL map	bubbling site)	bubbling site)	bubbling site)	bubbling sites)	presures
On the Airboat ride this morning in Central										
Lake there was one area that when the boat										
passes over there's an Oil sheen that comes										
to surface, the sheen seems NOT to be part										
of the issue's that are happening with the									Oil sheen location	
Cavern Wells. A lot of the passed bubbling									that comes to	S-7 95psi tubing
site's in Central Lake are not active anymore									surface when Boat	S-4 Opsi Tubing
or have little bubbling action happening or		Pad dry so no				No visual bubbling	No visual bubbling	No changes form	passes over.	280psi casing
look like passed inspections.		noticeable bubbling		Looks the same as		notice on	notice on	passed visual	N 30* 15' 08.67"	#1012 20psi on
