Location: Sulphur Mines Dome Date: Thursday, August 10, 2023 Inspector Name(s): Billy Carnes Other personnel on site: Josh Bradl Weather Conditions (Temp/Wind Speed/Dii Any planned work for today: Check But		9:3 90* SW16mph Part	0 AM ly Cloudy	Time of Departure: 12:30pm					
s that I can Inspection locations:	n see, Cavern Well pro Cavern 6X	essure's & some Yell Cavern Well 7A	owrock Wells Cavern Well 7B	CL-1	CL-9 & 19	Yellowrock			
Dome				(near BW-22, west side of Central Lake)	(Central Lake bubbling site's)	Tubing pressures			
Due to the Drought conditions I want be able to observed many bubbling sites and the Airboat was here Monday the 8/7/2023 & the driver notified me that there was no Changes to the bubbling site's in Salt Lake or Central Lake that he observed. Westlake notified me this morning that they will be moving Oil from Cavern Well 7b to the Frac tanks that they have set up		not able to observed bubbling due to well pad being dry.	277 gpm injection	Same as passed inspections except the fluid level is lower due the drought conditions.	These 2 site's are dry now.	#1012 30 psi S-7 170 psi S-4 0 psi
