Dear Mr. Rice,

The Amendment changes regarding the venting of all gas in any volume will have a devastating effect on all Owners, Operators, Vendors, as well as the entire Communities- and State Of Louisiana. This will in effect hurt our tax base.

Also the second Amendment being considered will in fact take away the ability for the Commissioner to grant an extension or exemption to Inactive, Future Utility Wells.

Owner/ Member Cynthia Poindexter Barkschat
Oil City, Louisiana

Thank You,
City Council District 4
