SEP 20 2024

Brickyard Trucking, LLC's Plan

- Acquire a Permit for a Commercial Disposal Facility 1.8 Miles North of Jamestown, LA
- Drill Three Injection Wells to Facilitate Water Disposal from Nearby Oil & Gas Activities
- Targeting Five Potential Disposal Depths/Zones in Total

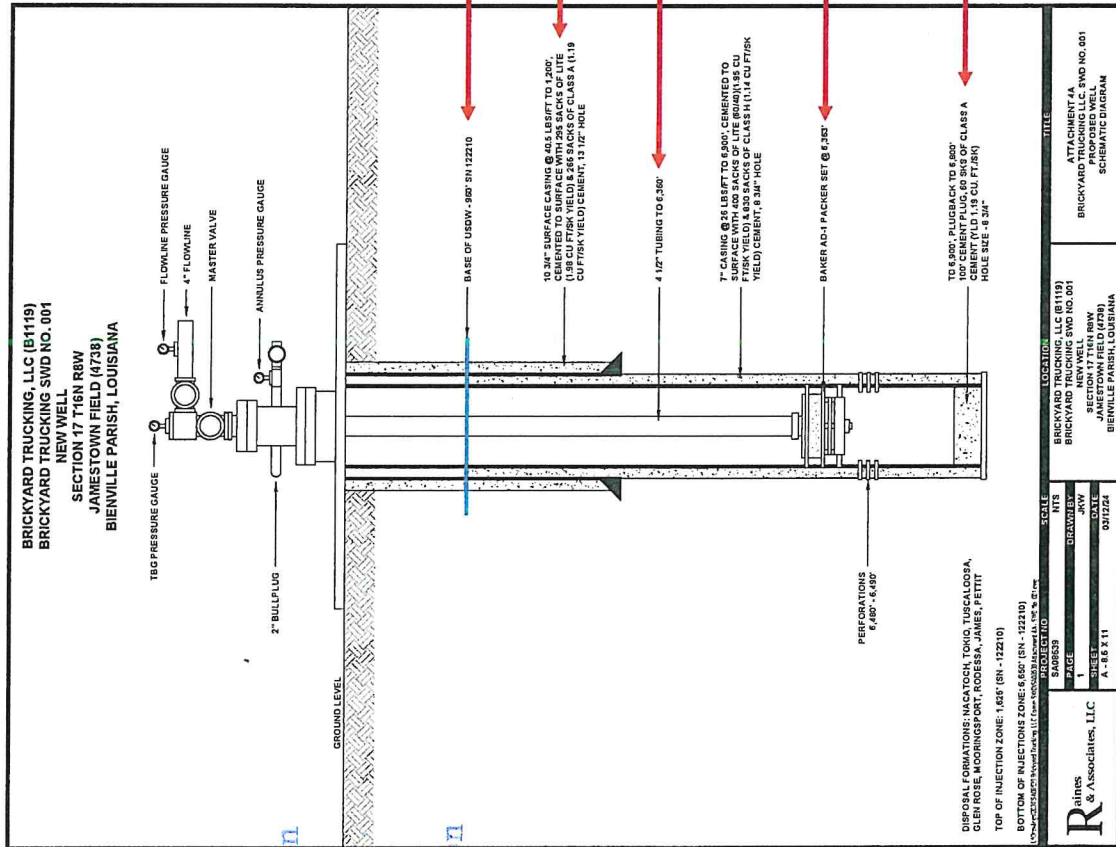

SEP 20 2024

Our First Priority = Protect Drinking Water

- State Requirement is to Set Surface Casing at Least 100' Below the USDW (Underground Source of Drinking Water)
- Our Wells Will Set Surface Casing 240' Below the USDW; More than Two Times the State Requirements
 - Surface Casing Will be Cemented from 1,200' back to Surface Using High Grade Oilfield Cement
 - Longstring Casing Calculated to be Cemented from TD back to Surface Using High Grade Oilfield Cement
 - High Grade Steel Tubing Will be Used Inside the Casing to Further Isolate the Injected Water and Ensure it is Delivered to the Perforations
 - A High Grade Packer Will be "Locked" into Place at 6,363' Around the Tubing to Further Isolate the Injected Water and Ensure it is Delivered to the Perforations
- Above Ground Facilities will Use Sealed, Seamless Concrete for Containment and Lined Steel Tanks for Water Storage

Facility Survey

SEP 20 2024

Facility Design

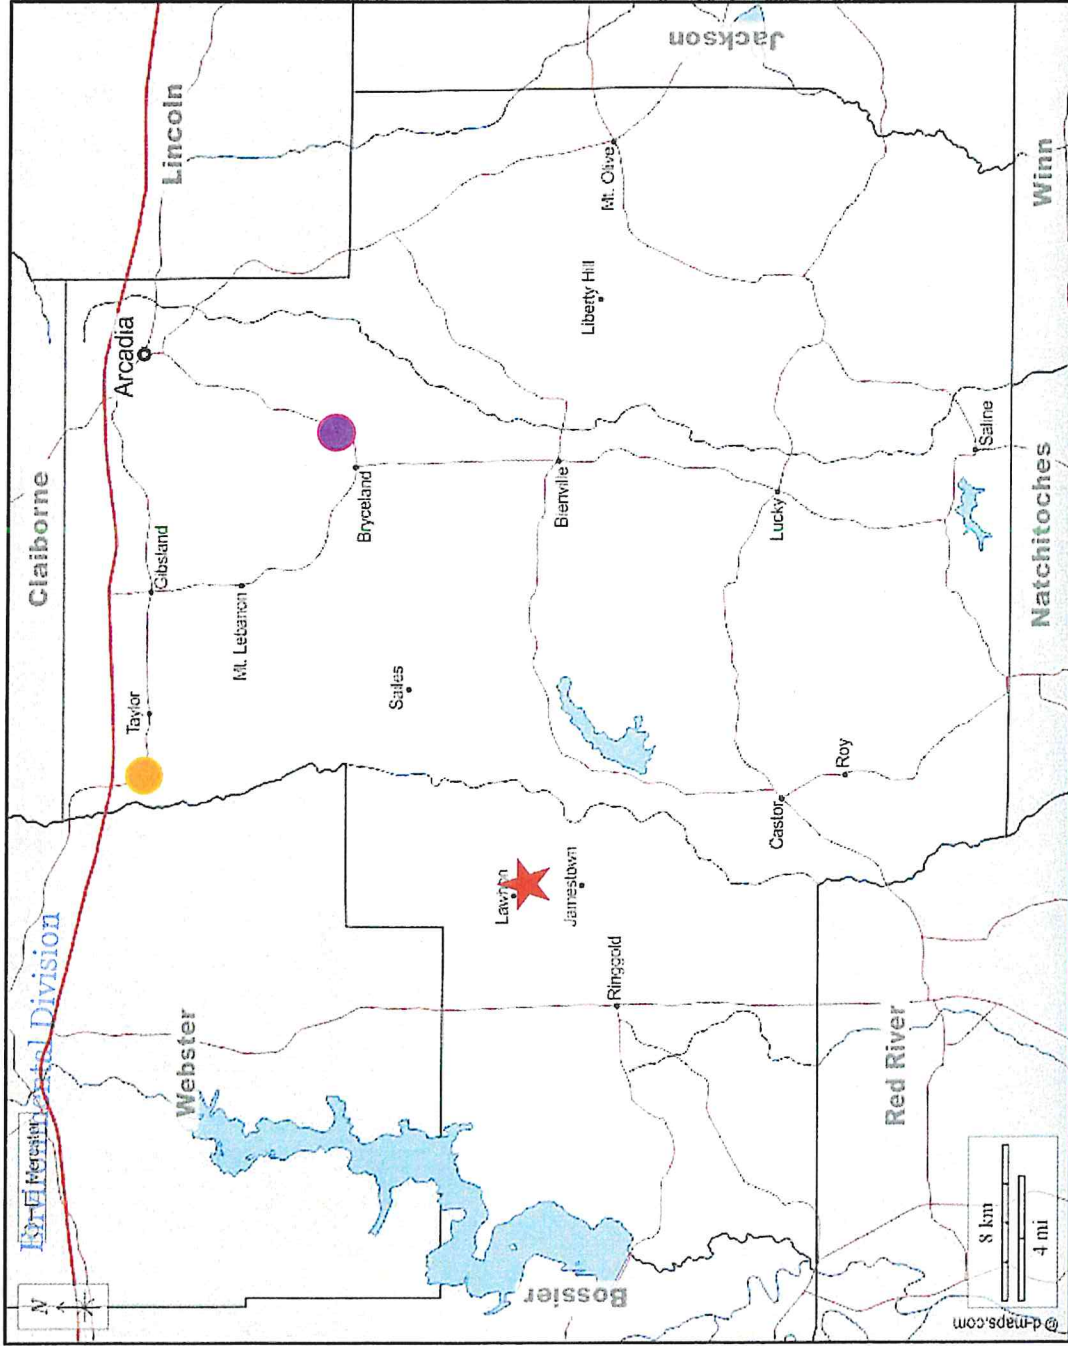

SEP 20 2024

Our Second Priority = Reduce Traffic

- Brickyard Trucking, LLC Facility Should Reduce Traffic Counts Across Bienville Parish Roads due to this Facility being Closer to Local O&G Activities
- Other Commercial SWD Facilities in Bienville Parish Should See Reduced Traffic Flows, Leading to Less Traffic in the Parish
 - o I-20 Facility is Located off I-20 at the Ada/Taylor Exit
 - o Bryceland Facility is Located 1.5 Miles NE of Bryceland, LA
- Traffic on the Jamestown -> Bienville -> Bryceland Route Should See Considerable Traffic Reduction Once the Facility is Operational
- We are Currently in Talks with Larger O&G Operators about Building a Pipeline to the Facility to further Reduce the need for Trucking

SEP 20 2024

SWD Locations in Bienville

● I-20 Facility

● Bryceland Facility

★ Brickyard Trucking, LLC Proposed Facility

Most Saltwater Truck Traffic Comes from South to North or Southwest to Northeast
Our Plan is to Provide a Shorter Route for Water Disposal, Reducing Travel Time on Roads in Bienville Parish
