

**ENCLOSURE 3**  
**CENTER FOR RIVER STUDIES EXHIBITION DESIGN DOCUMENT SET**

The CPRA has contracted with the LSU Coastal Sustainability Studio to design and oversee the fabrication and installation of the coastal exhibit area located in the Center for River Studies on The Water Campus in Baton Rouge. The CPRA seeks to enter into an agreement with a Contractor selected from the responders to this RSIQ for the fabrication and installation of this exhibit area.

Below is a link to download the Center for River Studies Exhibition Design document set. The document set is intended to provide details related to the programming of the exhibit area, exhibit design elements (including materials and electronic components), and specifications. Exhibit element graphics and content included in the document set are conceptual. Graphics and content will continue to evolve as the design of each individual element progresses.
